AAKKOSET

Review the ABCs of design—always be compartmentalizing—with Kayiwa's bold, graphic room divider. The letter-shaped gaps can either be filled with books, CDs, and knick-knacks or left empty to maintain a connection between separate spaces. The unit is made from sections of medium-density fiberboard, cut with a computer-controlled router and then glued and pressed together. Paint is mechanically applied and then hand-finished; available colors are black, blue, green, orange, red, violet, white, and yellow.
