

FINLAND
RARE GEM

Lights on or off, the Carat pendant lamp will always be an eye candy. Besides serving its functional purpose, the latest lighting by designer Lincoln Kayiwa gives an artistic touch to any room with its faceted glass and sandblast texture. With its diverse colour choice, mixing and matching a cluster of Carat will create a little light show at home, giving a more vivid impression to anyone stepping through the front door. *For more information, visit www.kayiwa.fi*

UNITED STATES
ALL LIT UP

Roll & Hill has collaborated with independent designers to create functional lighting with intricate shapes and has debuted its first collection of table lamps, floor lamps and candleholders this season. The latest range features contemporary designs made of rich materials including brass, bronze, and mouth-blown glass. *For more information, visit www.rollandhill.com*

AUSTRALIA

FOREVER SUMMER

To welcome the Australian summer, Hunting for George has released a range of gorgeous prints. Titled "Golden Years", the series of eight images and typography celebrates the warmth and energy of the season. In this collection, the brand experimented with different foil and papers to create unique textures and finishes. What's unique about the foil is that changes the appearance of the print according to light reflection, so each time you take a glance, it will look a little different.
