

ITALY
LEATHER LOVE

Frag highlights the best of leather in their latest Salon del Mobile collection.

The textile's visual and tangible warmth is exemplified in the Hudson day bed with its blend of aristocratic and contemporary design, while the Winnie lounge chair is something to sink into with its natural softness and gentle curves.

FINLAND
AVANT GRANITE

KAYIWA's latest collection of home accessories and furniture thrusts granite into the spotlight. The weighty stone may seem inappropriate for everyday home pieces, but KAYIWA makes clever use of these traits. Take for example the Hamara Platter and Ittoli Bowl with their curved bases that seem to float in air. There are also the Osmo and Edouard flower pots with their cylindrical and oval shapes that are perfect for displaying cacti and bonsai, and a selection of tableware and kitchen ware that are sure to add some character to your dining and cooking spaces.

PORTUGAL
TRENDY TAPESTRY

New on the scene, Rug Society has already been regarded as a force to be reckoned with. Each piece has been created by renowned designers determined to tell a story. Beyond the colourful displays of unique patterns and textures, every rug is an artistic interpretation of culture and history translated with thread.
